Answer: _____

11. What is the investment amount for the Proposal?

Answer: _____

12. Specify the Resource Utilization Efficiency (%) for the Proposal:?

Answer: _____

13. Enter the Plan Compliance (%) for the Proposal?

Answer: _____

14. What is the Cost Per Resource for the Proposal?

Answer: _____

Technical Feasibility

- **Software Requirements**

15. What is the operating system for the project?

Answer: _____

16. What application server is used?

Answer: _____

17. What front-end technology will be used?

Answer: _____

18. What back-end technology will be used?

Answer: _____

19. Which database system will be used?

Answer: _____

- **Hardware Requirements**

20. What is the processor type?

Answer: _____

21. What is the processing speed?

Answer: _____

22. How much RAM?

Answer: _____

23. What is the SSD storage capacity?

Answer: _____

24. What type of hard disk?

Answer: _____

25. Which device(s) will run the system?

Answer: _____

- **Development Tools & Frameworks**

26. What framework will be used for development?

Answer: _____

27. What source control tool will be used?

Answer: _____

28. What IDE will be used for development?

Answer: _____
